

# MIYA JORDAN *AI Product Designer*

Miyajordan824@outlook.com | (305) 807-7909 | Miami, FL

## Professional Summary

---

HCI graduate student focused on designing human-centered AI products and emerging technology experiences. Combines UX research, interaction design, and responsible AI principles to create intuitive, trustworthy user experiences. Experienced conducting user research, translating insights into design opportunities, and prototyping solutions in Figma. Passionate about AI ethics, human-AI interaction, and designing products that balance innovation with user trust.

## Education

---

**M.S. Human-Computer Interaction, Iowa State University** 02/2025 – 05/2026 | Ames, IA  
**B.A. Business Administration – Marketing, Clark Atlanta University** 08/2017 – 05/2021 | Atlanta, GA

## Professional Experience

---

**Delta Airlines, UX Research Intern** 05/2025 – 08/2025 | Atlanta, GA

- Planned and executed end-to-end research studies across digital and in-person service experiences.
- Conducted user interviews and usability testing to identify opportunities for improving customer-facing products.
- Synthesized findings into actionable design recommendations using affinity mapping and thematic analysis.
- Collaborated with cross-functional stakeholders to influence product and service experience decisions.
- Evaluated user trust, information clarity, and usability challenges to improve overall customer experience.

**Sentient Jet Private Aviation, Client Experience & Operations Specialist** 03/2022 – 12/2024 | Remote

- Managed high-value client relationships by identifying pain points and opportunities to improve the client experience.
- Analyzed service workflows and communication processes to increase transparency and operational efficiency.
- Advocated for client needs while collaborating across teams to resolve service challenges.
- Applied trust-building, privacy-conscious, and user-centered practices in a high-stakes service environment.
- Generated insights from client interactions that informed service improvements and experience design decisions.

**Georgia Lottery, Marketing Specialist – Behavioral Analytics** 05/2018 – 03/2021 | Atlanta, GA

- Analyzed behavioral data to support product launch strategy and audience engagement.
- Conducted market and user research to inform product and campaign decisions.
- Translated insights into recommendations for business and product stakeholders.
